99th Percentile Latency by AWS API (sec)  
Since 60 minutes ago

## AWS API Calls

This dashboard shows **real-world latencies** experienced by an anonymized sampling of New Relic customers when accessing AWS APIs.

You can filter the dashboard to a specific API or Region by selecting it in one of the tables on the left or by adding a filter using the filter bar at the top.

To view or customize the queries powering these charts, select “View query” or “Edit” in the chart actions drop-down menu. You can add additional charts to this dashboard by using the “+”.
